Installation Instructions

1. Apply thread locking agent to each 1-1/2" pipe nipple.
2. Tighten each pipe nipple using a pipe wrench until it is secure in the adjoining pipe coupling.
3. Slide the inside and outside adjustable pipe pieces together.
4. Secure the inside and outside adjustable pipe pieces using the provided square head bolt and nylock nut.
5. Tighten the nylock nut.
6. Refer to specific mount installation instructions for your specific application.
